

HSA VP EXTERNAL PLATFORM

SANDIE KENT

My platform is strongly focused on improving connections, communication, and productivity within the HSA, surrounding faculty, and institutions.

I would like to improve engagement between Haskayne students, faculty and the university. Stronger, more thoughtful communication of events and notices will increase views of the messages we from HSA want to share. I will accomplish this by working with the VP Marketing to find alternatives through other media rather than just D2L to reach students. I will work with VP Student Life to get a better understanding of what students want to see from our club, and their interests in what type of events they would like to attend to ensure I reach out and involve the correct resources to make these events a success.

I would like to grow connections to the HSA and all Haskayne students. I would like to get more students involved in the networking opportunities brought to Haskayne. I would work with the Career Centre to get access to the dates and times of events being brought to Haskayne and further extend the invitation for students to get involved in these opportunities. I would work with VP Student Life as well to find out about big midterms and finals to make sure our club events do not interfere with academics and increase turnout. I want to be a recognized, respected VP External that will work to deliver the wants, needs, and ideas between both students and faculty efficiently and effectively.

I want to open communication within the club. I want to help make sure all our efforts are focused towards the same goals, have the input of directors and other club members, and adopt a team mentality when it comes to planning events and making decisions on behalf of the club. I want to make the HSA more widely recognized within Haskayne and extended into the community by growing connections through alumni, companies, and other universities interested in working with us. I want to grow the club and get more young students involved in the opportunities the university has to offer.
